

The Health Care Training Academy Presents:

Pediatric Emergencies: For Out-of-Hospital Providers

Audience: School Nurses, EMTs, Paramedics, Non-Hospital Based Nurses, PAs, etc

Description: **You come across a child with a true emergency.** Do you know the current guidelines of care? Do you feel comfortable treating pre-hospital pediatric emergencies? Are you up to date? If you answer no to any of these questions, then this seminar is for you! We will discuss the types of emergencies that you may encounter. This program has been designed exclusively for healthcare providers who work in the **pre-hospital/out-of-hospital environment** (i.e. school nurse, pediatricians' office staff, clinic staff, EMTs/paramedics, and other out-of-hospital providers).

Objectives:

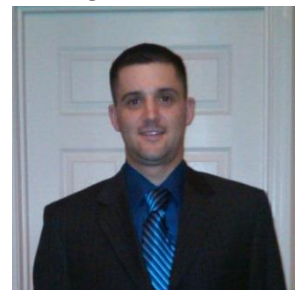

- Assess a seriously ill or injured child using multiple levels of assessment
- Describe the "assess-categorize-decide-act" approach to recognition and management of the child in respiratory distress or failure, shock, trauma, or cardiac arrest
- Demonstrate appropriate actions to take for stabilizing a critically ill or injured child during the initial minutes of response until the next level of care arrives
- Use elements of effective communication as a team member
- And much more...

Content/Agenda

Rapid Assessment & Treatment of:

- Trauma emergencies (Morning)
- Medical emergencies (Afternoon)

Speaker: **Lee Taylor-Vaughan, MSN, RN, APN, CCRN-CSC-CMC, PCCN, CEN, INC, NREMT-P** began his career in healthcare in 1995 in the Emergency Department. He has completed programs for EMT, Paramedic, Registered Nurse, and Nurse Practitioner. He obtained his BS and MS in Nursing from Rutgers University and is now earning a Doctor of Law from Kaplan University. Lee's career has been strongly focused on Emergency and Critical Care and as an Acute Care Nurse Practitioner, with a specialty in cardiothoracic surgery and Emergency Department Nursing. Lee is currently certified in many areas of nursing including: a Certified Emergency Nurse, Paramedic, Cardiac Surgery & Medicine, a Legal Nurse Consultant, Critical Care Registered Nurse (CCRN), and other non-healthcare certifications. Lee is an educationally entertaining, dynamic, energetic, and engaging lecturer holding national and international speaking engagements.
